TABLE I.

AREA, HOUSES AND POPULATION.

1. The order of units shown in this and subsequent tables differs from that adopted in the Census of 1911 in the following manner :—

(*a*) Delhi having been removed from the Punjab and constituted a separate Province has been shown at the end.

(*b*) The new district of Sheikhupura has been added below Gujranwala.

(*c*) The States shown in the 1911 Report have been divided according to the system of political control adopted in 1921, *vide* Punjab Government Notification No. 26458-P., dated the 29th October 1921.

(*d*) The Simla Hill States no longer include Bilaspur, the political control of which has been changed.

2. The differences between some of the areas shown in this table and those given in the corresponding table of 1911 are due to territorial transfers. The recent survey figures as communicated by the Survey of India Department for Rohtak, Karnal, Ambala, Amritsar, Sialkot, Gujranwala, Gujrat, Shahpur, Jhelum, Rawalpindi and Attock Districts have been entered after adjustment for subsequent changes; in the case of other districts those returned by the Survey of India and reported in the Tables of Agricultural Statistics of the Punjab for the year 1919-20 have been adopted without alteration.

3. The territorial transfers that have occurred since the last Census are—(1) the separation of Delhi Province, (2) the formation of Sheikhupura District, (3) inter-District transfers, (4) a transfer of 3 square miles from Sind to Bahawalpur owing to Survey corrections. The separation of Delhi Province has affected the areas of Rohtak, Gurgaon and Karnal Districts and the formation of Sheikhupura District, the areas of Gujranwala, Lyallpur, Sialkot and Lahore Districts.

4. In the case of those Indian States in which Survey Operations have not been carried out recently, the figures of the corresponding table of 1911 have been repeated; while in the case of others recent Survey figures have been used.

5. "Biloch Trans-Frontier" is the hilly tract across the border of the Dera Ghazi Khan District proper. It is administered by Tumandars (Tribal Chiefs) under the control of a Political Assistant to the Deputy Commissioner. The tract has not yet been regularly surveyed and the area given in the last Census Report has been repeated.

NOTE.—The population statistics for tahsils will be found in Provincial Tables I and II at the end of this volume.

TABLE VIII.

EDUCATION BY RELIGION AND AGE.

1. This table, like Table VII, is divided into three parts. Part A shows the extent of literacy in the Provinces of the Punjab and Delhi as a whole by religions. Part B gives details for districts and States of the Punjab for the total population and for each main religion. Part C gives similar details for cities and selected towns.

2. The figures in the body of the table refer to Christians of all races. Some statistics for Indian Christians only are noted below—

1. *Number of Indian Christians who are literate.*

TABLE II.

VARIATION IN POPULATION SINCE 1881.

1. In this table the figures of the present census are compared with those of previous censuses.

During the last decade Delhi and the Punjab have been formed into separate provinces; and small areas have been transferred to each from the United Provinces. The new district of Sheikhupura has been formed and minor territorial changes have occurred affecting the following districts :—

Delhi, Rohtak, Gurgaon, Karnal, Ambala, Simla, Lahore, Sialkot, Gujranwala, Sheikhupura, Gujrat, Shahpur, Montgomery, Lyallpur, Jhang and Multan.

2. The population of areas transferred has been taken into account and the figures of former census reports adjusted accordingly. The total population of the Punjab and Delhi in 1881, 1891, 1901 and 1911 has been increased by 14,812, 15,600, 17,299 and 17,064 persons respectively on account of transfers of areas from the United Provinces of Agra and Oudh.

3. A census was taken in the Punjab in 1868, but the administrative divisions of the province were then so different that comparison is useless.

BY RELIGION AND AGE.

TABLE III.

TOWNS AND VILLAGES CLASSIFIED BY POPULATION.

1. In this table as in Tables I and IV Cantonments and Civil Lines have been treated as forming parts of the towns which they adjoin. Kasumpti Municipality is included in Simla.

2. According to revenue records the total number of villages in the Punjab and Delhi British Territory is 36,666 of which 2,057 are uninhabited. The total number of inhabited villages and towns according to this table comes to 34,580. The difference of 29 villages is due to the following causes :—

(*a*)	Due to 6 villages being included in three towns. The names of these towns do not appear in the revenue records as each of them is made up of two or more villages	3
(*b*)	Villages lying within municipal limits and being treated as part of the town	22
(*c*)	Civil Lines and Cantonments shown as separate units in the revenue records but treated as part of the adjoining town	4

3. Villages whose homesteads lie in one block so that no line can be drawn to distinguish the population of one village from that of the other, were at the time of enumeration treated as a single unit. In compilation, however, the total population of such villages has been divided equally between the component villages and each village treated as a separate unit.

4. The revenue mauza has generally been taken as a village except in the case of towns. In some of the Indian States which have not been surveyed the unit for collection of revenue has been treated as a village.

5. The total number of travellers enumerated in encampments, boats and trains, etc., etc., has been shown separately in this table. In Tables IV and V the number has been included in the population of the towns in which the place of enumeration is situated.

TABLE IV.

TOWNS CLASSIFIED BY POPULATION WITH VARIATION SINCE 1881.

1. For the purposes of this table a town was defined as including every Municipality of whatever size, every Cantonment, all Civil Lines not included in municipal limits, and every other continuous collection of houses inhabited by not less than 5,000 persons which is of an urban character though not under Municipal Government.

2. The question whether a collection of residential houses should or should not be classed under the last category was determined by the Superintendent of Census Operations in correspondence with local Officers before the Census with reference to the probable population, and consequently in many cases the limit of 5,000 was not reached. On the other hand many places with more than 5,000 inhabitants were omitted as they had not urban characteristics. The headquarters of all Punjab States, except the Simla Hill States, have been included in this table irrespective of their population.

3. No attempt has been made to adjust the figures affected by changes in the area of towns during the last decade, and the figures given in the previous Census have been repeated. The limits of Hoshiarpur, Gujranwala and Lyallpur Municipalities have been extended since the last Census by the inclusion of areas from the adjoining villages, but the figures for the areas included are not available.

4. Twenty-four towns with a total population of 123,145 persons have been added for the first time, while 11 places with a population aggregating 48,883 persons in 1911 and treated then as towns have now been excluded from the list. In consequence of this the figures in the first five lines of the table for previous Censuses are not the totals of the figures given below them.

5. In the case of places treated as towns for the first time it has not been found possible to ascertain the former population, while in the case of the other towns the available figures for each column have been given.

6. The summer population of the Hill Stations Simla, Murree and Dalhousie as ascertained at a special census held on the 30th June 1921 is given below—

	Males.	Females.	Total.
Simla	33,560	11,917	45,477
Murree	11,799	4,025	15,824
Dalhousie	4,853	1,968	6,821

7. A census was taken in the Punjab in 1868, but the areas dealt with do not correspond with any existing administrative divisions, and the figures are useless for comparison.

8. The abbreviations used in this table are—

M. = Municipality. C. L. = Civil Lines.

Cantt. = Cantonment. U. = Urban.

S. = Suburban.

TABLE XII.

INFIRMITIES.

This table is divided into two parts. Part I shows the distribution of the persons afflicted according to age, and Part II, their distribution according to locality.

Dual infirmities were recorded. Persons afflicted with two or more infirmities have been shown under each of the infirmities in question in columns 5 to 16. The total of the infirmities therefore exceeds the total number of persons afflicted as given in columns 2 to 4. The figures of persons afflicted with dual infirmities are stated below for both the Punjab and Delhi Provinces.

I.—PUNJAB.

A. The figure 7,087 in column 5 includes (1) 60 persons (34 males and 26 females) who are also deaf-mutes, (2) 26 persons (12 males and 14 females) who are also blind, and (3) 7 persons (4 males and 3 females) who are also lepers.

B. The figure 22,758 in column 8 includes (1) 214 persons (140 males and 74 females) who are also insane, (2) 148 persons (88 males and 60 females) who are also blind, and (3) 35 persons (34 males and 1 female) who are also lepers.

C. The figure 65,051 in column 11 includes (1) 89 persons (54 males and 35 females) who are also insane, (2) 98 persons (72 males and 26 females) who are also deaf-mutes, and (3) 12 persons (10 males and 2 females) who are also lepers.

D. The figure 2,737 in column 14 includes (1) 13 persons (6 males and 7 females) who are also insane, (2) 11 persons (9 males and 2 females) who are also deaf-mutes, and (3) 14 persons (6 males and 8 females) who are also blind.

TABLE XII A.

INFIRMITIES BY CASTES, TRIBES OR RACES.

1. This table shows for the Province, as a whole, the number of persons suffering from infirmities in each caste or tribe. The figures for Christians have been given separately by nationality.

2. Dual infirmities were not sorted for this table, as was done in the case of Table XII, and consequently the total figures in this table for each infirmity differ from the totals of that infirmity shown in Table XII, to the extent of the dual infirmities noted on the title page of the latter table.

3. The figures exhibited in columns 2—4 have been taken from tables XIII and XV.

4. As the population dealt with in this table is confined to those castes only which have returned persons afflicted with infirmities, the provincial figures in columns 2—4 will fall short of the provincial total in Table VI to the extent of the population of those castes in which no infirmities have been returned, plus the population of Parsis and Jews, amongst whom there are no persons suffering from any infirmity.

5. As no economy in space could be effected by the omission of castes returning only a few persons afflicted with infirmities, the figures for all castes returning infirmities have been shown in this table without exception.

6. The figures given opposite Bhat in this table include 1,793 males and 1,773 females who returned their caste as Brahman Bhat, amongst these the only infirmities recorded were blindness amongst four males. The figures opposite Jhiwar include 1,265 males and 961 females who returned their caste as Mehra Rajput, amongst these one male was recorded as insane which was the only infirmity recorded.

TABLE XIII.

CASTE OR TRIBE.

1. Figures for Christians, Parsis and Jews have been omitted from this table, as no castes are recognised in those religions. Details for Christians by nationality are available in Tables XV and XVI. The figures for Parsis and Jews are printed in Table VI.

2. As a rule persons converted from other religions to Christianity were returned as " Indian Christians " and their caste of origin was not mentioned in the Census Schedules. They have been excluded from this table.

3. Where members of a caste belong to different religions separate figures have been given ; but where the numerical strength of a caste in any one religion falls below 20, the figures have been included in the total, with a footnote to this effect.

4. To economise space, the following castes have been grouped together under the head " Minor ":—

No.	Sub-caste.	Males.	Females.	No.	Sub-caste	Males.	Females.
	Total Minor	442	441	4	Jád	1	5
1	Bári	13	11	5	Kikan	128	113
2	Bisáti	160	231	6	Lánbá	24	35
3	Gándhi	6	6	7	Marahatti	110	40

5. The excess of figures given in this table over those of Tables IX, XIV and XXI is due to the fact that those tables deal only with important religions of each caste for different local areas and do not include the figures added in the course of classification,

6. Persons belonging to different religions who failed to specify their castes have been entered under the head " Unspecified."

TABLE XIV.

CIVIL CONDITION BY AGE FOR SELECTED CASTES AND TRIBES.

1. The castes selected for this table are the same as those dealt with in Table IX.

2. The localities are the same as those of Table IX. The total strength of a caste in this table does not necessarily tally with that in Table XIII for the reasons given on the title page of Table IX.

3. In this table figures for Arya (Vedic Dharm), Brahmo and Dev Dharm are included in those for Hindus, but to illustrate the civil condition of those classes separate figures have been printed as an appendix to this table which is published in Part III of the Report.

TABLE XVII.

OCCUPATION OR MEANS OF LIVELIHOOD.

GENERAL TABLE.

1. All occupations are divided according to this scheme into four main lasses and sub-divided into twelve sub-classes, fifty-six orders and one hundred nd ninety-one groups. This is the same scheme of classification as in 1911, xcept that there were then fifty-five orders and one hundred and sixty-nine roups.

2. The column "Partially Agriculturist" has been omitted from the eading of the groups where it did not contain any figures.

3. Groups No. 20 (Petroleum-wells), 69 (Fish-curers) and 74 (Toddy-rawers) have been omitted from this table as no persons recorded themselves s pursuing those occupations.

4. In the case of the Multan District certain columns are blank for want f exact specification of occupation and the persons who should, probably, e entered in those columns, have been entered in the general groups.

5. The full headings for which abbreviations have been used in the ody of the table are:—

Columns.	*Order number.*	*Group number.*	*Heading.*
608—612	17	..	Production and transmission of physical forces (heat, light, electricity, motive power, etc.).
645—649	18	99	Makers of bangles or beads or necklaces of other material than glass, and makers of spangles, rosaries, lingams and sacred threads.
656—660	Do.	101	Others, including managers, persons (other than performers) employed in theatres and other places of public entertainment, employees of public societies, race course service, huntsmen, etc.

TABLE XXI.

OCCUPATION OF SELECTED CASTES, TRIBES OR RACES.

1. This table deals with the occupation of Europeans, Anglo-Indians and Armenians in addition to the castes selected for Tables IX and XIV.

2. The localities are the same as those of Table IX with the exception that Europeans and Anglo-Indians have been shown for the whole of the province with details of the districts which returned fifty or more persons of each nationality. The number of Armenians being very small, their figures have been given for the whole of the province.

3. For the reasons given on the title page to Table IX the total strength of a caste in this table does not necessarily tally with that in Table XIII.

4. The figures in column 15 and onwards are exclusive of those in columns 9 and 10.

TABLE VII.

AGE, SEX AND CIVIL CONDITION.

1. The age shown in this table represents the number of years completed and not the current year of age.

2. This table is divided into three parts. Part A shows the distribution for the Punjab as a whole, for British Territory, for Punjab States (both groups), and for Delhi of the total population and of each main religion by age, sex and civil condition. Part B shows the distribution for Districts and States, of the total population and of the five principal religions (Hindu, Musalman, Christian, Jain and Sikh) by age, sex and civil condition. Part C gives similar details with the addition of figures for " Others " (other religions which include Buddhist, Parsi and Jew) for cities and selected towns.

Note.—Age statistics for selected tahsils and places treated as towns for Census purposes are given in Part III (Provincial Tables).

TABLE XXII.

1. The term " Industrial Establishment " in this table means any premises wherein or within the precincts of which ten or more persons are employed on separate remuneration in any process for making, repairing, ornamenting, finishing or otherwise adapting for use, for transport or for sale any articles or part of an article. It does not include such industries as are carried on by members of a household in their joint interest with less than ten hired labourers. The statistics exhibited in this table regarding various industrial establishments were collected in a special schedule which was filled in by the owners or managers of all establishments in which at least ten persons were employed on the date of the census.

2. This table is divided into seven parts :—

Part I shows for the province as a whole the number of persons employed in each kind of industry distinguishing between industrial establishments in which mechanical power is used and those in which it is not and classifying them according to the number of persons employed.

Part II gives the district figures without the classification of establishments according to power and number of persons employed given in Part I.

Part III shows classification of industrial establishments according to the class of owners and managers.

Parts IV and V deal with caste, race and birth-place of skilled and unskilled workmen respectively in selected industries.

Part VI furnishes details of power employed.

Part VII gives the number of looms in use in Textile Establishments.

PROVINCIAL TABLE II.

POPULATION OF TAHSILS BY RELIGION AND EDUCATION.

1. Figures in columns 2—17 have been taken from the village tables and show details, by Tahsils, of the entries in Imperial Table VI. The distribution of persons who did not specify their religion and were recorded under the name of their caste or tribe is given on the title page of Imperial Table VI.

2. Columns 18—23 have been left blank in the case of States in which the detail of Literate Persons was not available by Tahsils.

TABLE V.

TOWNS ARRANGED TERRITORIALLY WITH POPULATION BY RELIGION.

1. In the case of Municipalities with Cantonments or Civil Lines adjoining them, the whole area has been treated as a single town but separate figures have been given below the total in smaller type for the Municipalities, Cantonments, &c.

2. There are no persons belonging to " Other " religions or " Unspecified " religions in any town.

3. The abbreviations used in this Table are :—

M. = Municipality, C. L. = Civil Lines, Cantt. = Cantonment.

NOTE.—Persons recorded under " Indefinite Beliefs " have been shown separately in Table VI. They have been excluded from Christian figures in Table XV. In this and other Tables Christian figures include " Indefinite Beliefs".

TABLE IX.

EDUCATION BY SELECTED CASTES, TRIBES OR RACES.

1. This table has been prepared for selected castes which contributed more than 2 *per mille* to the total population, and also for the four criminal tribes—Bawaria, Harni, Pakhiwara and Sansi—which do not contribute 2 *per mille* to the population but in which the extent of literacy forms an interesting study.

2. For the purposes of this table, the Punjab has been split up into four main divisions, *viz.* :—

A.—Eastern Punjab, including the Ambala Division except Simla District and the States of Loharu, Dujana, Pataudi, Kalsia and Nahan.

B.—Central Punjab, Hills, including the Simla and Kangra Districts, the Simla Hill States and the States of Bilaspur, Mandi, Suket and Chamba.

C.—Central Punjab, Plains, including the Jullundur and Lahore Divisions, the Gujrat, Lyallpur and Jhang Districts, the Phulkian States and the States of Kapurthala, Faridkot and Malerkotla.

D.—Western Punjab, including the remaining districts in the Rawalpindi and Multan Divisions and the State of Bahawalpur, and these are referred to as A, B, C and D in column 2 of the table.

3. Separate figures for Arya, Brahmo and Dev Dharm, which for the purposes of this table are included among the Hindus, have been printed for certain districts, as an appendix to Table IX, in Volume III, with a view to illustrate the literacy in those classes.

4. The total strength of a caste in this table does not tally with that in Table XIII, as important religions only of each caste have been dealt with in this table for different local areas. Table XIII also includes figures added in the course of classification which the present table does not.

TABLE XI.

BIRTH-PLACE.

The table is divided into three parts. Part A contains statistics of birth-place for the Punjab Province as a whole and for each District and State. Part B contains similar information for the Cities and selected Towns of the Punjab. Part C gives similar details for Delhi Province and City.

2. In the case of Provinces adjacent to the Punjab and Delhi Provinces the figures for those Districts or States which adjoin the Punjab and Delhi Provinces respectively have also been given in Parts A and C but not of all and hence the district details will not total up to the figures for the Provinces.
